

BIOGRAPHY

VIRGIL J. (JACK) TONEY, JR. MAJOR GENERAL, USAF (Ret)

Jack Toney is the Director of The Federal Technology Center's Statewide Procurement Assistance Program, serving approximately 800,000 businesses in 54 counties throughout California. The program provides education and counseling services to small businesses to help them successfully compete for federal, state, and local government contracts.

Jack Toney's work experience includes over 30 years of increasingly responsible positions in the United States Air Force with assignments in Texas, Panama, California, Virginia, and Washington, DC. For four years he was Mobilization Assistant to the Director of the Defense Logistics Agency (DLA), which is responsible for the worldwide logistics support to the military services and defense and civil agencies. At that time the DLA included the Defense Contract Management Command, which was responsible for contract management services for over \$900 Billion in active contracts with 24,000 contractors. His last assignment prior to retirement was as Mobilization Assistant to the Inspector General of the Air Force.

Jack's 30 years of civilian experience in California State government included the preparation of Requests for Proposals (RFPs), proposal evaluation, contract award and management of the contract for fiscal intermediary services for California's \$10 Billion Medicaid program. He was also responsible for preparing RFPs and conducting procurements for toxic clean-up, and was the contract officer for over 250 general acute care hospital contracts and some 50 subacute care facility contracts. He has managed large statewide offices and supervised multidisciplinary staffs of physicians, attorneys, nurses, pharmacists, analysts and support staff. He was responsible for licensing over 3000 health facilities in California, and has been Chief of both Policy and Operations for the Medicaid program. In his last position prior to retirement, he was responsible for licensing, and fiscal and medical oversight of all of the health plans in California.

EDUCATION:

Bachelor of Science in Engineering Management, U. S. Air Force Academy, Colorado
Master of Business Administration in Finance, University of California at Los Angeles
